

Do you have **Turner syndrome?**

Are you aged 16 years or over?

If the answer is yes, please read on.....

**Our aim is to find out whether you are getting the best medical care that you can have.**

We want to find out more about the quality and range of care that young women with Turner Syndrome receive.

We're setting up a National Register of all women with Turner syndrome who are aged 16 years and over. Once you have registered you would simply be asked to fill in one questionnaire a year, by post. We want to find out whether you continue to receive medical follow-up and an excellent standard of care.

**To find out more:**

**E-mail: [turners@paed.cam.ac.uk](mailto:turners@paed.cam.ac.uk)**

**Tel: 01223 769386**

**Write to: National Turner Register**

**University of Cambridge Department of Paediatrics**

**Box 116 Addenbrooke's Hospital**

**Cambridge CB2 0QQ**
